

Mathematics through story

Making maths fun for all!

This highly practical workshop will explore the use of story and rhyme in the development of activities across the mathematics curriculum.

Aimed at **early years practitioners**, these 1/2 day sessions will focus upon:

- the use of picture books to introduce and develop mathematical concepts
- how puppets, masks, storysacks and role play can be used in a mathematical setting
- developing number through rhyme
- the creation of stories to promote mathematical procedures

So many
ideas to take
back to the
classroom!

Teacher, Wakefield

Participants will receive useful activity handouts and take away from the sessions hand-made resources and patterns for later use in the classroom.

The workshop will be led by Neil Griffiths, a former literacy project director and headteacher.

Renowned for his work with storysacks, Neil has lectured extensively world-wide. His workshops are always informative, practical and highly entertaining!

The maximum number for the workshop is 60 participants.
